## FIRM PROFILE

Informed by a multi-cultural background, nurtured in the United States, formed in Europe and with an umbilical cord still attached to China, David Ling founded David Ling Architects in 1992. Ling established an international practice in the U.S., Europe and Asia. Composed of exhibition spaces, creative offices, high-end retail, high-end residences, affordable housing and institutional spaces Ling's work has received numerous international awards such as the Interiors Magazine's Annual Awards for Best Retail Design and again for Best Office Design, Interior Design Magazine's Future Furniture Award, Best of Year Award and Kitchen and Bath Designer Leader Award, Municipal Arts Society's National Design Award, Architectural Biennial Miami + Beach Gold and Silver medals, Benjamin Moore's Hue Awards for Best Residential Interiors, London's Design Partnership Award for Best Retail Design and Best Exhibition Design from ICFF and London's Grosvenor House Antiques Fair. Ling's international press includes The New York Times, Wall Street Journal, Netflix, Architectural Digest, HGTV, Dwell Video, Interior Design, Interiors, Dwell, House and Garden, Elle Décor, Metropolitan Home, Wallpaper, Arte, Casa da Abitare, Casa Brutus, Interni, Architektur und Wohnen, Frankfurter Allgemeine Zeitung, Vogue, Elle, Harper's Bazaar, VM+SD, West Deutsche Rundfunk, Plum TV and Burlington Magazine. Ling's client list includes The Guggenheim Museum, Ford Models, Tina Brown, Alberta Ferretti, Steve Wynn, Sotheby's Aaliyah, Blue Man Group, G E Smith, De Menil, Levin Art Group and the SOFA Art Fair as well as retail environments for Jean Paul Gaultier, Moschino, Narciso Rodriguez. Ling has held teaching positions at Pratt Institute, Parsons School of Design, University of Oregon and University of Nürnberg.

The Essence of Ling's Architecture is the artistic integration of space, form, light and function enriched by materiality. As all projects are treated as unique, so too is Ling's creative vocabulary tailored to diverse sites, budgets and programs. Ling's approach is a sculpted choreography of opposites, forming a dialogue of integrated spaces and forms articulated in a crafted use of materials, ennobling space and form through materiality and light.

Ling has had the pleasure and honor of collaborating with unique, successful, strong clients. Ling considers collaboration integral to the design process. Ling sees that problem finding, questioning, and understanding motivations are essential for finding the solutions, intelligent answers and creating alignments with his clients real desires, requirements and aspirations. Problems are welcome as design is often derived from the problem. During delivery of services, Ling's practice is to resolve problems with transparent communication, understanding the client's concerns and behaving with sensitivity and responsibility to the client. Ling's approach is inclusive and consensus building, involving the client and contractor in communication and problem solving. Knowing that each perspective can contribute to the solution, Ling encourages an open discussion from design issues to the prosaic constraints of budget, schedule and details. It is in this way that Ling has executed his concepts for diverse clients, budgets and programs. David Ling endeavors to create something never said before, in a timeless manner.

**EDUCATION**

14                    **Haystack Mountain School of Crafts**, Glass Studio, Maine - Artist Residency  
81-83/85           **Universität Stuttgart**, Architecture, Germany – Dipl. Ing. (MARCH equiv)
